

Billie Jo Jones is quickly becoming a household name in Texas and she has her sights set on taking over the nation and the world! With an authentic East Texas sound that's all her own, Billie Jo combines traditional country soul with modern touches that result in classic songs with a present day attitude.

She has shared the stage with artists including Gene Watson, Linda Davis, Barbara Fairchild, The Oak Ridge Boys, Diamond Rio, Justin Moore, Wade Bowen, Pat Green, Stoney LaRue, Roger Creager, Sam Riggs, Bryan White, Jerrod Niemann, Josh Abbott, Wade Hayes, Adam Hood, Jack Ingram, Jamie Lin Wilson, Deana Carter and many others.

A personal highlight was her performance opening the show for Ray Price - one of her biggest inspirations and someone she listened to many times with her grandparents over the years.
